

# Committee Meets to Organize Friends of Library Association

*5 July 1984*

A committee to start a Wasatch County Chapter of the Friends of the Library Association met last week. The committee set up a date for an open meeting to be held, tentatively, on Thursday, July 26th.

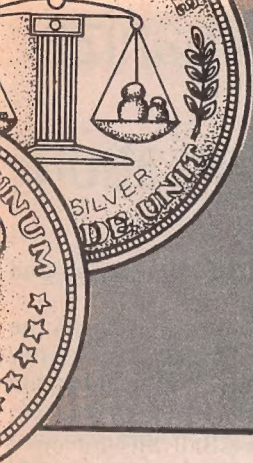

The purpose of the meeting will be to adopt by-laws and elect officers. Also the result of a public opinion survey about the library will be reviewed. That survey will be printed in the Wasatch Wave on July 12th.

County residents can fill out the survey and take it to the library or

other designated locations around the valley.

The general overall goal of the Friends of Wasatch County Library Association is to aid in the upgrading of library services, provide training for library volunteers, raise funds for special projects and increase the awareness of available library services among county residents.
